

# SASAKI CELLULOID

SINCE 1966

株式会社 佐々木セルロイド工業所  
sasaki celluloid ind. co., ltd.

Not made from fashion but from the legacy  
of the craftsman's pride

# About Sasaki Celluloid

We are the leading company of manufacturing acetate and celluloid eyewear frames.

About 90 years since Sasaki Celluloid has been founded, we have been the pioneer as an acetate and celluloid eyewear frame manufacturer. We are a integrated manufacturer, which makes us very special in Sabae.

With the skills achieved and inherited through the years, the craftsmen of Sasaki Celluloid creates beautiful eyewear that reveals the best essence of its materials.

What also makes us stand out is that not like other small factories in Sabae, Sasaki Celluloid can afford you the best quality eyewear in both small and large scale production.

---

## Kosuke Akagi - President of Sasaki Celluloid

Our concept upon manufacturing is to make eyewear that can be used for a long time, instead of something that are disposable.

The market is waiting for products and services that are sustainable.

And we as a manufacturer in Sabae, are able to give solutions that can solve these social issues through manufacturing eyewear with the highest quality.

We are looking forward to build sustainable products and services that can lead to our next generation.

---

# Materials

## 100% acetate

---

Unique and beautiful color variations. Because this material is more flexible compared to celluloid, various designs are possible.

## 100% celluloid

---

This material has been used for the longest time. Suits well with classical designed frames. Very tough and its gloss that can be seen after polishing is beautiful.

## Acetate and metal combination

---

Combination of acetate front and metal temples are possible too. Suits well with simple designs.

# Process of OEM

Based on your requests and images, Sasaki Celluloid will do best to make your ideal acetate and celluloid eyewear come into shape. We are ready to answer your inquiries with flexibility.

## 1 CONTACT US

Please let us hear your request through the contacting form. We can handle online meetings or exchanging e-mails, both in English.

## 2 SEVERAL MEETINGS

Based on your request, we will sketch, draw, and propose the best colors. Estimation of the price is possible too

## 3 PROTOTYPE

Based on the fixed design, our craftsman will make prototype by hand. We will check the size and make small adjustments.

## 4 QUOTE

Based on the fixed specification and order amount, we will give the final price quotation.

## 5 ORDER

After receiving purchase order, we will let you know the precise schedule and delivery date.

## 6 DELIVERY

After strict inspection, now we are ready to ship the frames to you!
